

Hosted by the WFTGA Area Representatives  
April – November 2025

# GLOBAL NETWORKING FORUM

Launching this April and running through November 2025, we are proud to introduce the Global Networking Forum for Tourist Guides.

Hosted by the WFTGA Area Representatives, this new series will offer a dynamic space for continued dialogue, shared learning, and professional growth. Each month, guides from around the world will come together to:

- Identify emerging issues facing tourist guides in a rapidly evolving travel landscape
- Explore practical and innovative solutions
- Articulate strategies for positive change within our industry

Our goal is to strengthen the global guiding community through open exchange and inclusive collaboration. Whether you participated in last year's webinars or are joining us for the first time, we invite you to be part of this journey as we rewrite the future.

Stay tuned for the full schedule, registration details, and speaker announcements coming soon!

Let's continue building bridges through guiding — together.

## SCHEDULE
